## Sex Offender Treatment Providers/ Programs offered in Maricopa County

Juveniles adjudicated of a sexual offense have the opportunity to participate in sex offender treatment as a part of their probation terms. Treatment ranges from outpatient care to therapeutic group home care to secured locked intensive inpatient programs. A traditional sex offender treatment program is generally a 12 to 18 month program with more or less time required depending on the severity of the offense and the juvenile's ability to work through the program. The Special Supervision Unit relies on clinicians and psychologists to determine sexual risk and need. After adjudication, prior to disposition, a psychosexual evaluation is recommended in order to assist with making treatment recommendations.

While the juvenile is pending Adjudication and/or Disposition, and he/she is released into the community, the Special Supervision Unit will recommend that the juvenile complies with a safety plan.

**Out Patient Sex Offender Providers:** Probation will make a recommendation for outpatient sex offender treatment for juveniles with a low to moderate risk to sexually re-offend. Outpatient sex offender treatment can range from 1 to 7 days a week, which includes individual, group and family treatment. Group treatment is gender specific. Boys and girls will participate in sex offender treatment separately. All of our patient providers are able to work with families if re-unification with the victim is an option. Most outpatient treatment providers are able to prepare juveniles for polygraph examinations.

- **Grossman and Grossmans:** Grossmans is an outpatient provider with two locations. One in the West Valley and one location in Mesa. They offer individual treatment- with an option to participate in Boundary Therapy for low risk offenders who do not have younger victims or hands on victims. The Boundary/ Individual treatment program is generally one day a week. The traditional sex offender program is four days a week and includes individual, group and family treatment. Grossmans is an AOC (probation) contracted provider.
- **Resolution Group:** The Resolution Group offers the same services as Grossmans. They also have two locations. One in Central Phoenix and the other in Mesa. Resolution Group is an AOC (probation) contracted provider and an MMIC/ DCS contracted provider.
- **YDI Intensive Out-Patient Chaperone Program:** The YDI Chaperone Program is an intensive outpatient program for moderate risk offenders who require additional support and supervision in the community. The program begins as a seven day a week program and later reduces to a four to five day a week program when risk is reduced and certain portions of the program are completed. YDI Chaperone provides individual, group and family treatment. YDI is located in Central Phoenix. One significant difference is that this program offers transportation to and from the juvenile's home to the office location. The Chaperone Program is an AOC (probation) contracted provider.
- **Arizona Center for Change:** AZ Center for Change offers similar services to Grossmans and The Resolution Group. They are located in Central Phoenix. They are **NOT** an AOC/probation contracted program. MMIC would submit a referral to this program.
- **Touchstone MST/PSB Program:** Touchstone's MST (Multi System Team approach) PSB (Problem Sexualized Behaviors) offers intensive sex offender treatment in the home. The treatment

requires parents/ guardians to be present for all sessions. It is a combination of individual/family treatment. Touchstone is an MMIC/ DCS contracted provider.

- **Oasis Psychological:** Oasis Psychological offers similar services to Grossmans and the Resolution Group. Their office is located in the East Valley. They are an AOC (probation) contracted provider. Their MMIC contract is currently pending.

**Therapeutic Group Homes (Level 2 Homes):** Therapeutic Sex Offender Group Homes provide placement, supervision and treatment to our moderate or moderate-high risk offenders or juveniles who cannot return to their homes if victims or younger children reside there. Treatments at therapeutic group homes include individual, group and family therapy on a more intensive basis than the outpatient therapy. The homes are gender specific. These placements also work with families if reunification with the victim is an option. The providers also are able to prepare juveniles for their polygraph examinations. Often times, this population has DCS involvement.

- **The UTURN FOUNDATION:** UTURN is a therapeutic group home for males with maladaptive sexualized behaviors. UTURN has three homes located in the East Valley. They provide inpatient sex offender therapy four to seven days a week. The staff members and clinicians have specific training to work with this population. The juveniles in this program should expect to commit to at least one year to 18 months in treatment. The juveniles will attend a public school in the neighborhood. This population is monitored very closely. UTURN works closely with probation and ensures the juveniles in their program learn the skills they need while maintaining safety and security. UTURN is an AOC (probation contracted provider) and an MMIC/DCS contracted provider.
- **YDI (YOUTH DEVELOPMENT INSTITUTE) Therapeutic Group Home:** YDI offers the same program/ treatment as UTURN. They are located in Central Phoenix. The juvenile's at YDI attend school on site and do not attend a public school. YDI works closely with probation. YDI is an AOC (probation contracted provider) and an MMIC/DCS contracted provider.
- **Sequel Care of Arizona:** Sequel Care is a therapeutic group home located in Prescott/ Dewey area. They offer the same services as UTURN and YDI. These juveniles attend public school in the Prescott/ Dewey Area. Sequel Care is **NOT** an AOC (probation contracted provider). MMIC would submit a referral to this program.
- **New Horizons Group Home:** New Horizons is a therapeutic group home for males with maladaptive sexualized behaviors. This program offers placement and supervision; however, they do not offer therapy on site. Generally, juveniles in this program will attend outpatient sex offender treatment with Grossmans, The Resolution Group or Arizona Center for Change. The staff are trained to work with this population; however, clinicians are not on site. New Horizons Group Home is **NOT** an AOC (probation contracted provider). MMIC would submit a referral to this program.
- **Unique Family Services (UFS):** UFS is a specialized home for sexually maladaptive males who also have a DDD or Autistic Diagnosis. This program only houses six males and provides increased supervision. Juveniles need to have a specific diagnosis to qualify for this program.

The program is a short term placement offering services from 90-180 days. Therapy is provided on site. UFS is **NOT** an AOC (probation contracted provider). MMIC would submit a referral to this program.

**Residential Treatment Centers (RTC Level 1 Care):** There is only one locked RTC which is able to provide services for sexual maladaptive youth in the state of Arizona. A recommendation for an RTC is generally for youth presenting with a moderate-high to high risk to reoffend.

- **Youth Development Institute (YDI):** YDI is the only Residential Treatment Center in Arizona able to provide treatment for problematic sexual behaviors. They offer intensive individual, group and family treatment in a secured setting. YDI has on site clinicians, medical providers and teachers. Youth at YDI's level 1 program are able to step down to the therapeutic group home when risk is reduced and after completion of certain portions of the programming requirements.

**Arizona Department of Juvenile Corrections (ADJOC):** ADJC has a sex offender treatment program, known as the Journey or Nova program. ADJC will be recommended for our high risk offenders or for adjudicated sex offenders who are expected to age out of the system in less than one year, who present with significant risk factors. ADJOC offers the highest level of sex offender treatment in the State of Arizona.
